On Saturday afternoon at 3 o'clock. Every person there will have a bunch of red tickets. Each ticket represents a previous purchase. On it is stamped the time of day. The person holding the ticket having on it the nearest the time our clock stops gets \$5.00. You will see that some persons have 50 or 60 tickets; some more. Each of these means a dollar sale. Count the people, find out the number of tickets each has and you will find out about what our sales run.

Keep Bright and You WILL KEEP BUSY

Electric Light is the magnet that draws trade. The bright store is the "hypnotic eye" of business. People can no more resist the attraction of a brilliant, electrically lighted store than they can resist the clarion call of a brass band.

Is your competitor with the Electrically illuminated show windows, bright interior and sparkling Electric Sign getting an advantage over you? This moth never flutters around the unlighted candle! Up-to-date stores nowadays consider shop-window lighting a necessity, whether they remain open after dark or not. Competition forces modern methods.

A show window brilliantly illuminated with Electric light will make many a sale "the night before." Electric light compels attention, makes easy the examination of your display, shows goods in detail and fabrics in their true colors.

And don't neglect the Electric Sign. It is soliciting "tomorrow's" business every moment it is lighted—burning your name in the public mind. It is a solicitor that never becomes weary—never stops work—costs little.
